

# CREATING IBM CLOUD SERVICE

Date	22 November 2022
Team ID	PNT2022TMID16813
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and 'sri karishma's Account'. Below this, the 'Dashboard' section is visible, featuring a 'For you' carousel with several service tiles. The tiles include 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a virtual machine' (Lift and shift your VMware workloads to the IBM Cloud), 'Use Cloudant' (Cloudant is a managed NoSQL document database that offers serverless scaling of throughput, capacity, and storage), and 'Get started with IBM Cloud' (Get up and running with IBM Cloud). Each tile has a 'Getting started' button and a time estimate. Below the carousel, there are sections for 'User access' (Manage users), 'News' (View all), and 'Planned maintenance' (View all). The bottom of the dashboard shows a taskbar with various application icons and a system clock indicating 3:04 PM on 11/22/2022.
